

**REMARKS**

The present Amendment is being filed to effectuate Applicants' previous change in the title. In particular, in Applicants' Amendment of March 27, 2006, Applicants changed to the title of the present application to:

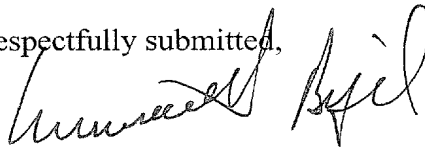

-- METHODS FOR FABRICATING MICROSTRUCTURES BY IMAGING A  
RADIATION SENSITIVE LAYER SANDWICHED BETWEEN OUTER  
LAYERS --.

Unfortunately, the Notice of Allowance does not reflect this change in the title. Accordingly, Applicants respectfully request the title be changed pursuant to the present Amendment, and that the issued patent reflect the correct title.

Also, in reviewing the file, Applicants note that signed copies of the Eighth Supplemental Information Disclosure Statement (August 17, 2006), the Ninth Supplemental Information Disclosure Statement (November 20, 2006) and the Tenth Supplemental Information Disclosure Statement (November 20, 2006) have not been signed and returned. Copies of the Eighth, Ninth and Tenth Supplemental Information Disclosure Statements are attached hereto. Applicants respectfully request consideration of these Supplemental Information Disclosure Statements and request the Examiner to return the initialed Forms PTO-1449 to indicate consideration by the Examiner.

In view of the above, Applicants respectfully request entry of the present Amendment, and passing the application to issue.

Respectfully submitted,

Mitchell S. Bigel  
Registration No. 29,614  
Attorney for Applicants
